

# Mountains Got Talent:

## A COMMUNITY EVENT

**M**ountains Got Talent (MGT) – formerly Evergreen’s Got Talent and Conifer’s Got Talent – is the premier student music competition in our mountain community. Now expanded to include more area schools, MGT gives young musicians the opportunity to step onto a professional stage, perform live in front of judges and share their sound with a real audience.

Presented by the Wooden Hawk Foundation, MGT celebrates creativity, musicianship and the next generation of performers from our mountain schools. Whether a student has played dozens of shows or is stepping onto a big stage for the very first time, MGT provides a supportive, high-energy environment designed to help young artists grow, gain experience and be heard.

Student musicians compete as solo artists or as part of a band. Performances are evaluated by judges involved in the music industry, and winning acts earn paid performance opportunities at Summerfest, Mountain Music Fest, Evergreen Fine Arts Festival, EPRD Summer Concert Series, Hops Drops and Cactus Jack’s

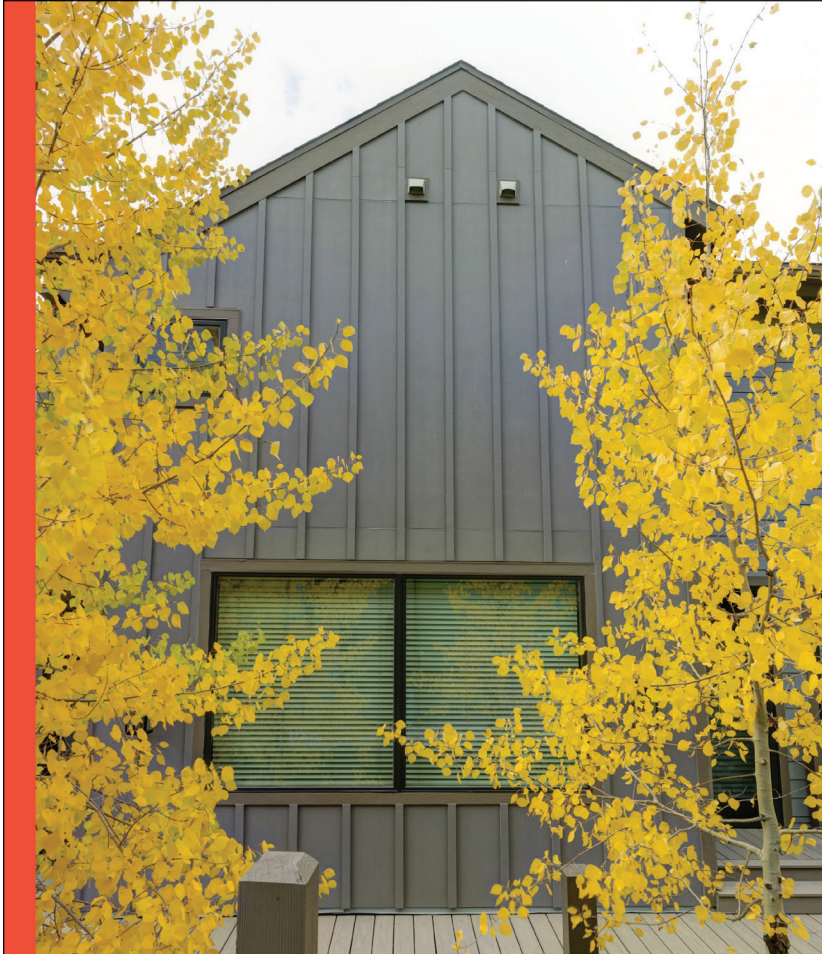

Saloon and Grill. These paid gigs provide students with real-world stage experience and the opportunity to build their resumes while performing in front of large audiences.

By combining Conifer’s Got Talent and Evergreen’s Got Talent, MGT has grown into a larger, more dynamic event – expanding opportunities for student musicians and strengthening its mission. By investing in these young artists, we help ensure that live music and creative expression remain a strong and inspiring part of our community.

Come support our student mountain musicians on Friday, Apr. 17, from 5-9pm at Conifer High School.
